

MS Crinkle Finish

Performance you can see and feel

MS Metal Sales™

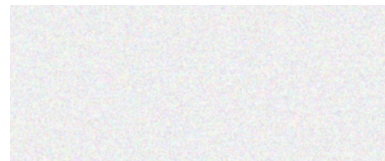

Unique Textured Finish for Superior Performance

This new, textured finish redirects light for enhanced visual depth, resulting in a series of shifting and shimmering tones. MS Crinkle Finish promises a unique, aesthetic appearance compared to a standard finish.

Formulated with enhanced silicone polyester, MS Crinkle Finish offers enhanced weatherability to resist fading, scratching and chalking. Combine that with the superior sales and technical support that you have come to expect from Metal Sales and you have a building envelope that will last for decades.

Features & Benefits

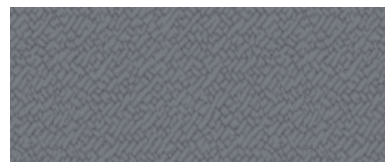

- Panel Gauge: 29 ga. and select 26 ga.
- Siliconized Polyester paint system
- Warranty: 45 year film integrity

Taupe (74T)

Brown (12T)

Red (24T)

Burgundy (15T)

*Also available on 26 gauge Image II™

Note: Colors shown above are close representations but are limited by printing and viewing conditions. Due to the unique texture these colors will not perfectly match and are not interchangeable with other similar Metal Sales colors.

This is a unique appearance coating that needs to be seen and felt. Actual samples are available by request. Contact a Metal Sales representative for more information about our full line of panel profiles, trims and accessories to complete your project from start to finish.

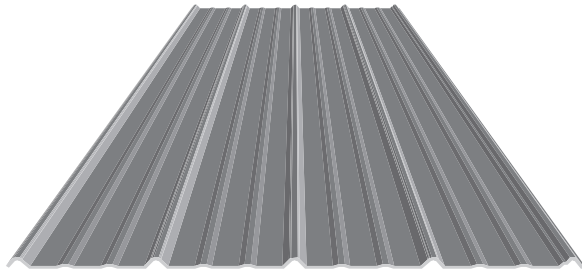

Directional coating: Two aligned panels may appear the same color when side by side, but when one of the panels is reversed, the panels appear to be different colors. Reversing the install direction on one of the roof panels will cause the planes to appear as different colors.
