

# Expect the Best From Your Coil Supplier

Armacoil™ jobsite coils are manufactured specifically for mobile rollforming, delivering consistent performance and dependable quality from coil to finished panel.

## » Consistent Coil. Consistent Panels

Consistent coil and coating performance achieved through standardized processes, strict sourcing and unified quality controls.

## » Precise Manufacturing That Saves You Headaches

Tight controls during fabrication that support clean alignment and consistent panels, implemented to minimize rework, scrap and downtime on the jobsite.

## » Protection For The Road

Reinforced packaging designed to protect coil through transport, storage and jobsite handling.

## » Coil Customized to Your Project

Coil available in a wide range of gauges, widths and colors.

## » Coil When You Need It, Where You Need It

Backed by a network of trusted suppliers and 50+ pickup locations nationwide, helping contractors access inventory, service and support closer to the jobsite.
